COVID SAFETY PROTOCOL

The Friday Conference Center at UNC has the following requirements in place to ensure safe participation by all its guests.

You must always wear a face mask while inside any University building. Face masks are not required when outdoors but they are encouraged, especially when participating in any type of group event or gathering.

All face masks must meet the following criteria:
1. Fit snugly and securely over the mouth and nose and against the side of the face;
2. Be secured by ties or ear loops;
3. Allow for unrestricted breathing; and
4. In the case of cloth face masks, be able to be laundered and dried without damage or change to shape.

There are limited circumstances where a face mask is not required while inside a University building. If you have a question, always check for posted signs and instructions.
• Eating or drinking on campus: While actively eating or drinking on University property.
• Medical attention: An individual who needs medical attention or services requiring temporary removal of the face mask.

Presenters (session chairs/paper presenters/discussants) may remove masks while presenting as long as they attest that they are fully vaccinated. Presenters should be at least 10 feet away from any participant when they are presenting.
